SCIENCE & FUTURE

Research to stop coronavirus underway at Argonne

At Argonne National Laboratory, coronavirus research has been given top priority. [Karolina Michalska](#), a University of Chicago protein crystallographer teamed up with researchers from Northwestern University Feinberg School of Medicine and other international institutions to look into how the coronavirus replicates in hopes of understanding how to combat it.

What will the next decade bring in science?

Four eminent UChicago scientists shared the possibilities and pitfalls they could see in their own fields in next decade.
